TRANSITIONS AND CAREER ED.

October, 2021

School is back in full swing and students have been active in starting their Transition planning for next fall. Our aim is to speak with each student individually by the end of November to learn more about their ambitions for the future. Recently, we created EducationPlanner BC accounts so that students can start applying to Post-Secondary schools. Additionally, students will be instructed in navigating the Ministry of Education Student Transcript Service (STS). Here, students can access, view, and send their transcript to employers and Post-Secondary Schools.

Please keep in mind that the Career and Life Connections 12 course activities are due by winter break. Students can access these activities by logging in to www.myblueprint.ca/sd58 and following the instructions and "How-To" videos. We also encourage students to continue working towards their 30 hours of Career Exploration. Grade 12 students have been using our Friday Q block to work towards completing the coursework and Career Exploration opportunities are being shared to student and parent e-mails weekly. Please feel free to contact a member of our team to learn more!
