

L'ACTION FRANÇAISE!

A Publication of Colletville & MSS French Immersion

July 3, 2024

Grade 12 Graduation

We are so proud of our graduating class of 2024! Students & staff lined the hallway to congratulate our Colletville graduates and their peers! So special to see these familiar faces as they prepare for their next chapter!

Kindergarten & Grade 7 Graduation

Lots of excitement at Colletville as our Kindergartens and Grade 7s celebrated their graduation. The time has flown by and our youngest students are ready for grade 1 and our grade 7s are ready to move on to the adventures of High School!

Division 2

Division 2 finished off the year with a bang! While I write this the students are dissecting owl pellets. After that we will paint our clay creations which we sculpted on Friday. Here is a photo of us after doing 9 or 18 holes of disc golf. June was lots of fun and very interesting for the students.

MSS- Grade 10/11

We finished the year with two big projects. Students were asked to create a museum display or an unboxing YouTube video on a WW2 theme. At the same time, they were involved in creating a card or a board game on an historical theme of their choosing. We spent the last week of school playing these games.

MSS- Grade 12

I would like to say congratulations to these 9 students for successfully completing the French Immersion program. I wish them the best in their future adventures. Missing signature: Carlos.

Gregg LeRock Concert

Colletville staff and students have been listening to a selection of 10 Gregg LeRock songs since the fall. Last week, students were able to sing along with Gregg LeRock during his virtual concert. It was a blast!

GREGG LEROCK CONCERT PRIVÉ

Division 7

June was a busy month for Division 7. The students worked hard on perfecting their performances for "La poule Maboule". They all did an amazing job! Mme Anscomb was so proud. They also had a lot of fun participating in Primary Fun Day, and of course, the Gregg LeRock concert... glow sticks and all!

Division 4

ADST is in full swing in the grade 3 classroom. Students were given "carte blanche" when deciding how to make something creative using a box. The colourful final products varied from nature to around the house and everything in between!

July 3, 2024

Division 3

Division 3 recently did a STEM challenge to build a kite. Students planned, built and then attempted to fly their kites. If the kite did not fly on the first try, students built other prototypes. Thankfully, the wind picked up and all students successfully flew a kite. It was a wonderful experience!

Division 5

Division 5 was very fortunate to go to Kelowna to the Francophone Cultural Centre in June to attend a workshop on Stories. There, they reviewed spring vocabulary and wrote a short story. Prior to their visit, they were able to go the Kelowna City Park.

Primary Fun Day

Another amazing Primary Fun Day is in the books! Our youngest students gave it their all during the morning running races! The rest of the day was filled with some fantastic and entertaining stations! A big thank you to our grade 6 & 7 students for organizing & running the stations and to our grade 5 students for being our group leaders. The day would not have been successful without your hard work!

Division 6

This month in Grade one we were busy! We have been to Kelowna, visited the Public Works yard, joined in on Primary Fun Day, and enjoyed Gregg le Rock Concert! We also got a chance to be the teacher and teach our friends something. We learned about puppets, volcanoes, how to feed a horse and also how to make a neat yarn craft. We are looking forward to showing off our skills when we get to grade 2 next year!

Monck Park

Collettville staff and students enjoyed a long standing tradition of a day at Monck Park. Good weather & lots of fun were enjoyed by everyone!

CCFO

Three groups off Collettville students made a trip over to Kelowna to visit the Centre Culturel Francophone de l'Okanagan.

Students enjoyed a French culture workshop and a tasty treat while on site. Students also made a quick stop at the Kelowna City Park.

MSS- Grade 9

We finished the year by developing an understanding of the impact of the Industrial Revolution on labor and then we focused on child labor. We also discovered that industrialization continues today and continues to have a positive and negative impact on labor.

Division 1

Here are a couple of photos from Div 1 reading their very own modern day fairytales based on Greek myths (Gr 7s) and the Canadian Government (Gr 6s). They read them to their Gr 1 little buddies.

MSS-Grade 8

We finished our school year with a study of the Renaissance. There final project was to create trading cards of influential people from this time period.
